The Classic Masculine Nude

Although the nude in art is cultural heritage spanning nearly two-thousand years, the contemporary view seldom associates nudity of the male with classic renditions of the great masters. Indeed, since the Middle Ages, few memorial works predicting the nude male figure have come to light. In practically every painting showing the nude, it is the graceful and beautiful figure of the female that predominates to the utter exclusion of the masculine form. Although times have changed and the means of artistic expression have been modified by the introduction of photography, there remains an element of reserve insofar as the male nude is concerned. Just how and why this attitude has developed is, perhaps, best understood by subjecting the history of the nude male figure in art to close study.

The nude in art is distinctly an invention of the Greeks. It was the 5th century B.C. that Greek artisans first turned their attention to the expression of physical perfection and beauty. They did so to give substance to those entities they revered as Gods, and though their initial attempts lacked the subtle grace and charm of later works, the very earliest Greecian statues are viewed even today with respect. Their form is such as to inspire a sense of dignity and purpose and examples

that have survived the tortuous test of time attest to the skill and craftmanship of these early masters. Of great significance, however, is the fact that with few exceptions these early works were confined to giving dimension to the male figure. The female form was seldom treated artistically and it remained for future generations to establish the trove of feminine nudes we now consider masterpieces in the classic mold. Two theories have been advanced to explain this disproportionate treatment and both are sufficiently valid to bear noting.

Perhaps the strongest argument for Greek preoccupation with the male nude is to be found in the source of their inspiration. It must be recalled that most early statues are attempts to render ideal Gods in a three-dimensional motif thereby giving to the inhibitants of the Acropolis a form of substance they never before possessed. Gods ceased to be merely figments of the imagination, mythical entities lacing dimension, but because instead embodiment of a material sort with which the ancient culture could identify. The Greeks assumed, not illogically, that God and man were of the same mold but they recognized that Godliness bespoke perfection and accordingly contrived means whereby their works resulted in images vastly superior to that of mortal man. In short, they believed their Gods were like perfectly beautiful men and statues to their Gods were made so that the body conformed to the laws of proportion and thus assumed the divine

beauty of mathematics.

The words, "orderly process" suggest a compatability in all phases of daily life. The building of magnificent structures was — and is — a sign of advanced culture. It is all but impossible to imagine the ancient Greeks being content to live in mud hovels. Cultures far more antiquated had achieved tremendous success in the architectural arts and the Greeks most certainly could be expected to modify these earlier accomplishments. In doing so they would of necessity become acquainted with the fundamentals of mathematical precision. A simple knowledge of numbers and proportion would have been sufficient for application to art without any undue emphasis being laid on its doorstep. The weight many observers attach to the Greek preoccupation with mathematics in the creation of fine arts, therefore, appears without merit. As long as they possess a rudimentary knowledge of the science, it would have been sufficient for application to the development of an artistic heritage.

The Greek view of nudity must certainly have influenced their art quite apart from any religious connotations. This is not to say that the Greek pattern of daily life was not conditioned upon an appraisal of their mythological heros, who supposedly roamed the heights of Olympus without benefit of clothing, but the fact remains that Greeks accepted nudity as a sign of purity and customarily held public games in which the contestants were entirely naked. There was no question

of impropriety and it was not at all unusual for males to move about freely unattired. Curiously, women were not generally accorded the same lattitude. Thus, the Greek preoccupation with the nude was conditioned entirely by the overwhelming freedom of the nude male. The culmination of these influences is reflected in their art which characteristically portrays the nude male while slighting the female form to almost absolute exclusion.

Such was the fate of the nude male, that few examples of male art exist which were drawn or sculptured in the Rennaissance period. Indeed, precious few male figures have ever been created since the 4th century. Yet, some examples of male nude studies are worthy of mention because they are given form by master craftsmen and they are exceedingly beautiful. Perhaps the best known is Michelangelo's "David" — a supreme achievement in the classic sense and yet, distinctly outside the sphere of Apollo. We are indebted, too, to Michelangelo for numerous sketches of nude male (An Antique God and Nude Youth being two widely circulated) as well as many of his more famous works which depict the unclad masculine figure of man. He was not alone in so treating the male subject, however. Da Vinci, Perguino, Albrecht Durer and others were similarly fascinated with the male figure but their examples failed to incite their contemporaries and in time the male nude all but disappeared from the scene.

I am over 21 years of age.

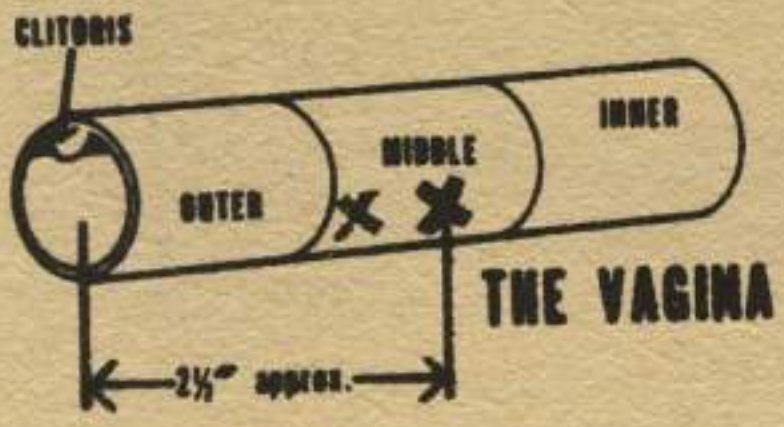
A new medical breakthrough. . .this new discovery comes as a boon to married people of every age. It is especially important where sexual problems are caused by lack of sexual feeling in women, lack of sexual interest, coldness, or frigidity due to lack of proper physical contact during the sexual act.

For years most doctors accepted the theory that the only major center of sexual sensation in women was a tiny, fleshy knob, the CLITORIS, located outside the vaginal opening. But now this long-held view has been successfully challenged!

A new center of sexual feeling has been found in women — an erogenous zone just as sensitive, just as vital to complete sexual fulfillment as the clitoris! This new center is located inside the vaginal opening. Here, at the juncture of two important pelvic muscles, two small areas about the size of a bean are richly endowed with the sensation-producing nerve endings. Unless these centers as well as the clitoris are stimulated during coitus, the deep, engulfing, totally gratifying and satisfying orgasmic release known as "the vaginal orgasm" may never be enjoyed by a woman! Women, right now, who are being shown by doctors how to achieve proper stimulation of this vital inner center of sexual pleasure report that previous sensations are merely a whisper, a tiny ripple of feeling in comparison. Sex has taken on a new importance in their lives. Their relations with their husbands have been transformed by youthful ardour, increased sexual appetite, loss of inhibitions, and an active desire to experiment sexually to achieve every nuance of sexual bliss that is now unfolding for them.

Doctors have discovered that it is the husband who can best help his wife discover these thrilling areas of internal sensation, and achieve the muscular control to enjoy them to the utmost. A simple device, designed by doctors for use by husbands is employed – and the results have been proven remarkable and nearly always instantaneous!

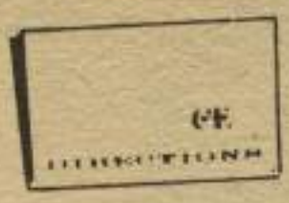
The CORONAL EXTENSION is worn by men during the sexual act. This easy-to-apply, professionally designed sexual aid is vital to the locating and stimulating of the inner sexual sensation centers. Two tiny bulbs filled with air, and designed to simulate the firmness of the erect male organ, move across the sensation centers during coitus, contacting and exciting these centers as nature intended, without irritating the vaginal wall. The woman's pleasure is suddenly magnified by this new stimulation.

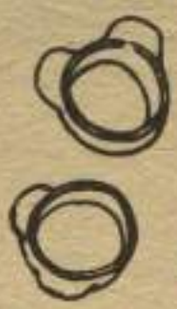


This diagram shows a representation of the average vagina, with the CLITORIS (or outer sexual sensory receptor) located at the vaginal opening. The INNER CENTERS occur on each side of the vaginal wall, approximately 2½ inches beyond the opening. The INNER CENTERS may be located readily in many women. Training or conditioning may be necessary in other cases.

CORONAL EXTENTION KIT

only $9.95





The Coronal Extension comes in a special, dust free plastic container with detailed instructions for use and proper care. If the simple instructions for care are followed, the Coronal Extension should readily outlast the conditions which warrant its use. The size of the Coronal Extension depends on the man who will wear it. A special tape measure with easy-to-follow instructions is provided with this booklet.

When you receive your Coronal Extension kit, you will notice two Extension rings. The bulbs on one are somewhat larger than on the other. Experience has shown us that the two rings are most practical. The ring with the largest bulbs is, of course, for cases involving more retracted internal Centers in the woman. Use of the larger ring is suggested until positive identification of the Internal Centers is made. Then, as the muscle tone and reflex begin responding to use, the Coronal Extension with smaller bulbs may be substituted.

HOW TO ORDER

FIRST, DETERMINE PROPER SIZE

* Measurement should be taken when the organ is NOT erect.
* Use the enclosed tape measure.
* The tape should fit in the groove behind the head of the male organ (behind the corona) and should be used to measure the distance around (circumference) of the organ at that point.
* The tape is 12 centimeters in overall length.

Take your measurement to the nearest centimeter and insert that number in the box on order coupon enclosed.

(i.e., if measurement reads 4¼ or 4½ insert the number 4 in the box. If measurement reads 4¾ insert the number 5.),

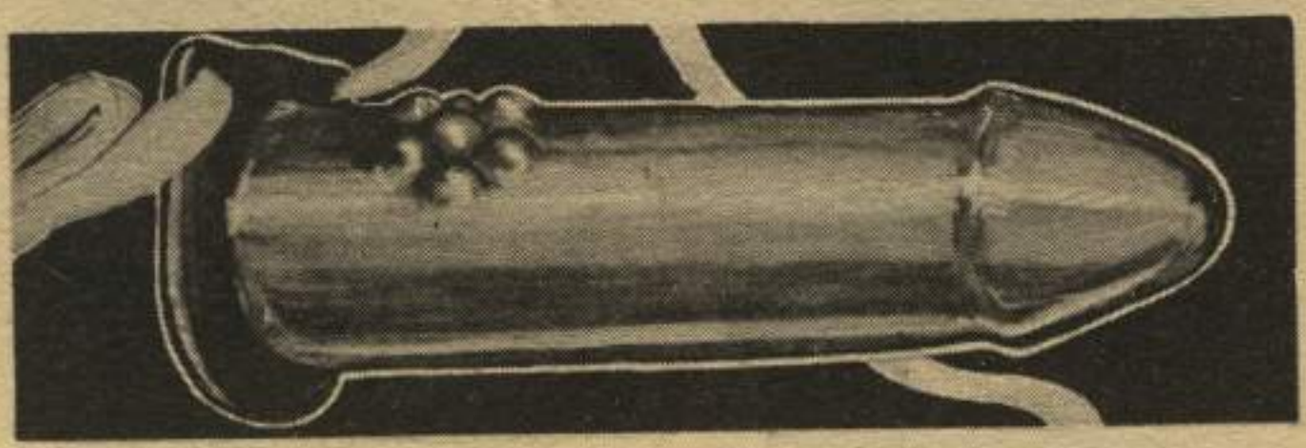
A REVOLUTIONARY SEXUAL-AID FOR MEN

THE AMAZING NEW IMPROVED UTHAID!

Eight years ago, this company pioneered in introducing to the world a unique device called the UTHAID – designed to help married men with certain sexual problems, recapture the joys, bliss and harmony which only happy sexual relations can bring a husband and wife. And now we are proud to announce an important breakthrough: A NEW AND TOTALLY IMPROVED UTHAID...a practical, easy-to-use remedy *for problems as old as time.*

THE NEW, IMPROVED UTHAID IS NOT A CONTRACEPTIVE



EVALUATE THESE IMPORTANT, ALL-NEW FEATURES!

- New, Life-Like Shape
- Life-like Texture, achieved by use of a new, miracle material! Combines lightness and thinness with necessary rigidity!
- Special Raised Medulae at the Base for increased stimulation!
- Continuously Adjustable Fastening Strap. Can be tied anywhere – a special boon to those with individual preferences!

In addition, we have maintained the odor and grease-resistant properties, along with the ease of cleaning – features which ensure that the NEW IMPROVED UTHAID will last for years with only minimal care.

ENJOY RICHER, MORE FULFILLING MARITAL RELATIONS!

We emphasize that the NEW IMPROVED UTHAID is not a gag or a joke. It is designed specifically to aid in one of the more prevalent and disturbing facets of heterosexual Sexual Relations: the failure of the husband to obtain and maintain sufficient rigidity for initial penetration.

THE NEW IMPROVED UTHAID CAN BE AN IMPORTANT SEXUAL AID FOR YOU

There are periods which may occur in any marriage where one partner's sexual desires lag behind the other's. The result can be nervousness, frustration, and an unhappy home life for both. Also, many middle-aged and elderly men often have intentions that are better than their abilities, resulting in highly unsatisfactory congress. Many overweight men may also have trouble with initial penetration.

WE FEEL THAT THE NEW IMPROVED UTHAID MAY HELP TO SOLVE THESE PROBLEMS!

* *Consult with your physician to find out how the NEW IMPROVED UTHAID may solve your own individual difficulties.*

THE NEW, IMPROVED UTHAID COMES IN THESE SIZES AT THESE PRICES:

6 x 1½" . . . . . $11 each . . . . 2 for $18 . . . . 3 for $25
7 x 1½" . . . . . $15 each . . . . 2 for $25 . . . . 3 for $36
7½ x 1¾" . . . . . $15 each . . . . 2 for $25 . . . . 3 for $36
8 x 2" . . . . . $20 each . . . . 2 for $35 . . . . 3 for $45

Sold on an absolute 7-DAY MONEY-BACK GUARANTEE!

ORDERING INFORMATION

In order to obtain your proper length, hold the organ between the thumb and forefinger and stretch gently away from the body until a slight tension is felt. WITH A RULER, MEASURE ON TOP IN INCHES FROM THE BODY TO THE END OF THE ORGAN. MEASURE ORGAN IN LIMBER STATE. Number of inches will indicate your proper size. Note: If you find that you have made a mistake in measuring, please return the New Improved Uthaid to us before use and we will replace it. Let us know your exchange size and we will ship it by return mail.
